- find the right level of abstraction

- find the right level of abstraction
- writing with students in mind

- find the right level of abstraction
- writing with students in mind
- find “clever” notations

- find the right level of abstraction
- writing with students in mind
- find “clever” notations
- writing down ideas $\neq$ writing a paper

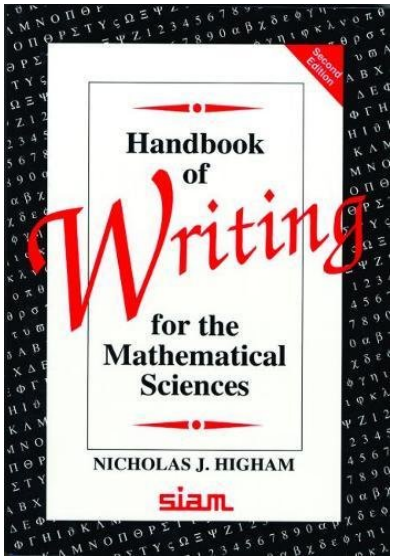
My Kingdom for a Macro

Always has been
This is a Macro

Always has been
Seriously,
this is a macro

```
\newcommand{\meme}[3][1]{
    \scalebox{#1}{\begin{tikzpicture}
     \node[anchor=south west,inner sep=0] at (0,0) {\includegraphics[scale=.3]{macroMeme}};
     \draw[black,rounded corners,fill=white] (1.2,3) rectangle (4,4) node[pos=.5] {{#2}};
    \draw[black,rounded corners,fill=white] (4,4.2) rectangle (7,5.2) node[pos=.5] {{#3}};
  \end{tikzpicture}}
}
```

- `https://tex.stackexchange.com/` or books



- latex is Turing-complete

```
\def\K#1#2{#2}
\def\S#1#2#3{#1#3{#2#3}}
```

- Keep your code clean

Nothing is Forever

- Change names if they do not resonate with intuition
- Change symbols if they do not resonate with intuition
- Change presentation if they do not resonate with intuition

Thank you

Thank you
